## Education

**Board of Technical Education, Uttar Pradesh (BTEUP)**, Gorakhpur, Uttar Pradesh 2022 – 2025  
*Diploma in Engineering – Computer Science – Percentage: 77%*

**Uttar Pradesh Board**, Uttar Pradesh 2022  
*High School – Science Stream – Percentage: 82%*

## Experience

**React Developer** Technobren Infotech Pvt. Ltd. – Present

*Working as a React Developer, building scalable and responsive web applications using React.js and Next.js.  
Developing reusable UI components, integrating REST APIs, and optimizing application performance.  
Collaborating with backend teams and implementing modern frontend best practices for production-level applications.*

**Intern – MERN Stack Developer (6 Months)** Techpile Technology Pvt. Ltd., Lucknow – 2025

*Completed a 6-month hands-on internship focused on full-stack web development using MongoDB, Express.js, React.js, and Node.js.  
Built and deployed real-world projects including e-commerce and management systems with authentication and REST APIs.  
Gained practical experience in debugging, API integration, and scalable application development.*

## Projects

**SchoolExl – Smart School Management System** | MERN Stack, Next.js | Live

- Developed a production-level school management platform with multi-role access (Super Admin, Teachers, Students).
- Designed scalable architecture to manage academic workflows including attendance, course delivery, and mentor-student interaction.
- Built dynamic dashboards and optimized frontend using Next.js for improved performance and SEO.
- Presented the project at an AI Summit, showcasing real-world scalability and implementation.

**HireNext – Job Portal** | MERN Stack | GitHub

- Developed a full-stack job portal enabling recruiters to post jobs and candidates to search and apply seamlessly.
- Implemented JWT-based authentication and role-based authorization for secure user access.
- Designed RESTful APIs for job posting, application tracking, and user management with complete CRUD operations.
- Built responsive and user-friendly UI using React.js with advanced filtering and search functionality.
- Integrated backend services with MongoDB ensuring efficient data handling and scalability.

**E-Commerce Platform** | MERN Stack | Live

- Engineered a scalable e-commerce platform with authentication, product catalog, cart, and order management.
- Developed RESTful APIs using Node.js and Express.js with MongoDB for efficient data operations.
- Implemented JWT-based authentication and protected routes to ensure secure transactions.
- Optimized frontend performance and created responsive UI using React.js best practices.

**Learning Management System** | MERN Stack | GitHub

- Developed a system to manage courses, users, and digital learning content efficiently.
- Built modular and reusable frontend components using React.js with effective state management.
- Implemented secure authentication and role-based authorization using JWT.

**Real Estate Management System** | MERN Stack | GitHub

- Developed a real estate platform enabling property listing, updating, searching, and browsing.
- Built responsive UI components using React.js integrated with backend APIs.
- Implemented role-based access control (RBAC) for secure admin and user operations.

## Skills

**Programming Languages:** JavaScript, Java, C++

**Frontend Development:** React.js, Next.js, HTML, CSS, Tailwind CSS

**Backend Development:** Node.js, Express.js

**Database:** MongoDB

**Tools & Technologies:** Git, GitHub, REST APIs, JWT Authentication

**Office Tools:** MS Excel, MS Word, PowerPoint
